

# Accessibility PLAN

## School Accessibility Plan: 2015-2017

The SEN and Disability Act 2001 extended the Disability Discrimination Act (DDA) 1995 to cover education. From 2002, the Governing Body has three key duties towards disabled pupils, under Part 4 of the DDA:

- not to treat disabled pupils less favourably for a reason related to their disability
- to make reasonable adjustments for disabled pupils, so that they are not at a substantial disadvantage
- to plan to increase access to education for disabled pupils This plan sets out the proposals of the Governing Body of Simon Marks Jewish Primary School to increase access to education for disabled pupils in the three areas required by the planning duties in the DDA:
  - increasing the extent to which disabled pupils can participate in the school curriculum
  - improving the environment of the school to increase the extent to which disabled pupils can take advantage of education and associated services
  - improving the delivery to disabled pupils of information which is provided in writing for pupils who are not disabled The 2005 DDA builds on existing responsibilities to ensure pupils, parents, carers and staff are consulted by the school to ensure people with a disability do not experience discrimination. Barriers to inclusion will be identified by the school and reasonable adjustments made to provide equality of opportunity for all. It is a requirement that the school's accessibility plan is resourced, implemented and reviewed and revised as necessary. Attached is a set of action plans showing how the school will address the priorities identified in the plan.

### AIMS:

- At Simon Marks JPS we are committed to giving all our children every opportunity to achieve the highest of standards. We do this by taking account of pupils' varied life experiences and needs. We offer a broad and balanced curriculum and have high expectations for all of our children, irrespective of ethnicity, attainment, age, disability gender or background.
- This school aims to be an inclusive school and promotes inclusion. We actively seek to remove barriers to learning and participation that can hinder and or exclude individual pupils or groups of pupils. This means that equality of opportunity must be a reality for our children. We will take all reasonable steps to ensure that children with a disability or SEN are not discriminated against or treated less favourably than other pupils. The school will work in partnership with families and other agencies in the best interest of the pupils and to maximise educational opportunity. We acknowledge that there may be times when this is impossible or inappropriate, despite our wishes or best efforts.
- We are committed to continuing staff training to enable them to be effective in the education of young people with disabilities and /or Special Educational Needs
- We will prioritise sufficient resources to support the actions identified in this plan

**DEFINITION OF DISABILITY:**

The DDA defines a disabled person as someone who has:

*'a physical or mental impairment which has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.'*

'Long term' means at least 12 months. 'Substantial' means 'more than minor or trivial.'

This definition covers pupils with physical (including sensory), intellectual or mental impairments. The definition is broad and includes children with a learning disability, sensory impairment, severe dyslexia, diabetes, epilepsy, incontinent pupils, pupils with AIDS, severe disfigurements or progressive conditions like Muscular Dystrophy. It can also include diagnosed conditions such as ADHD or Tourette's syndrome.

It is important that staff are aware that, although a pupil, parent, carer or staff member may be considered to have a disability according to the definition, they may not consider themselves disabled.

A whole school approach to inclusion is the most effective way of meeting the needs of all pupils.
